— Viscous control differential
— 18-inch alloy wheels

— Continental T sports seats
— Individual rear seats
— Mahogany veneer
— “Machine Turned” aluminum fascia
— Climate comfort glazing
— Headlight cleaning system
— And much more

Description:

The Bentley Continental T is regarded as one of the most desirable grand tourers of the late 1990s and was the most powerful production model of the brand at the time of its debut. Its 6.75-liter turbocharged V8 combines effortless power delivery with exceptional long-distance comfort and enables a top speed of around 270 km/h—making the Continental T one of **the fastest Bentleys of its era**. The shortened wheelbase, flared wheel arches with a wider track, and a more firmly tuned suspension give it a particularly dynamic character. With **only 322 exemplars produced**, the Continental T is now a **highly sought-after collector’s car**.

The example presented here was first delivered in April 1997 via British Motors S.A. in Monaco. According to the available documentation, it remained there until 2018, before being sold to its current owner and imported to Germany. The **factory paint finish in Black Emerald Mica** appears almost black depending on the light, revealing an elegant blue-green metallic hue. Combined with the Soft Tan interior, this results in an **exceptionally refined colour combination**. The vehicle is in a very well-maintained, original condition and shows a **mileage of just 64,900 km**. **Service booklet, original documents, and invoices are all available**. A rare opportunity to acquire a highly desirable Bentley Continental T, which continues to impress with its unique blend of British luxury, effortless performance, and exclusive rarity.

Engine: 8-cylinder-Turbo-engine, 6.750 ccm, 300 kW (408 hp)
