## Description:

In 1961, the "original model" of the W 111 series was introduced. Finally, in 1969, a modified model with a 2.8-litre engine came onto the market as a "flat radiator version". On request and for an additional charge, this model was also offered with the completely newly developed 3.5 l V8 engine. **Just 1.232 examples were produced.**

This car was originally delivered to Germany and **has only 2 previous owners.** The vehicle is largely in pristine original condition. The entire undercarriage has been ice-blasted and preserved. The total mileage is only 170.300 km. In addition, there is extensive documentation on the history and work carried out.

An almost unique opportunity to acquire one of the sought-after 3.5 l convertibles in a beautifully maintained condition and German delivery.

## Equipment:

Automatic, Radio Becker Mexico, middle armrests, 300 SE-chrome, heated seats, front fog lights, retrofitted central locking with alarm system, navigation and sound system (hidden) etc.
