THIESEN
AUTOMOBILE RARITÄTEN

Description:

The Jaguar XK 150 was built as the successor to the Jaguar XK140 from 1957 to 1961 as a coupe, convertible and roadster. **Only a few vehicles were built in the performance-enhanced version as a 3.4 ltr. S.**

According to the documents available, the vehicle presented here was delivered to the USA (New York) in 1958. In 2019, the car arrived in Europe, where it initially underwent a **full "Nut & Bolt" restoration by Jaguar Classic** between 2019 and 2021. According to the **Jaguar Heritage Certificate**, the car is **"matching-number"** regarding engine, exterior colour and interior. A **current valuation** and **photo documentation of the restoration process** are available.

A rare opportunity to acquire one of the few XK 150 S.

Equipment:
Stainless steel exhaust, 16 inch Borrani spoked wheels, luggage set 2 pcs.

Engine:
In-line six-cylinder engine, 3,442 cm³, approx. 250 hp (factory data)
