- Etc.

#### **Description:**

The BMW Z8 inherited its timeless, classic design with roadster-atypical proportions from the legendary BMW 507, which BMW rolled out on the road in the mid-1950s. The "Revival of the Legend" was the headline BMW used to present the Z8 at the IAA 1999, which was voted "Classic of the Future" in the "Open Cars" category by the readers of "Motor Klassik" magazine in 2003. As a modern interpretation of its famous predecessor, this roadster builds a bridge from the past via the present into the future.

From March 2000 to July 2003, 5,703 units were hand-built in the Z8 factory at the main plant in Munich.

According to available documents this BMW Z8 was delivered in Germany and registered for the first time on 01.06.2001. In total, the car has had **only 3 owners**. The current owner acquired the vehicle in 2007 with a mileage of 26,917 km. Since then, the car has been driven very little and shows a **mileage of only 44.618 km**. **Only 46 vehicles** were produced in the **beautiful colour combination stratus grey with full leather interior crema**. The roadster is very well maintained and accident-free. **All papers with complete cheque book** and **all service invoices**, **the corresponding production folder**, **the model book** and mobile phone are present. A very beautiful, well-documented and **rare example with great classic potential**, in which not only James Bond cuts a fine figure in "The world is not enough" in 1999!

#### Engine:

5.0-litre V8 engine with twin overhead camshafts, 400 hp, V-max. 250 km/h (factory
