- Retractable umbrellas in the A-pillars

Description:

The Rolls Royce Phantom is one of the most famous model series of the manufacturer with a tradition of almost 100 years, which starts in the top price segment of the British luxury car manufacturer and for this has to offer a correspondingly appealing and extraordinary performance. In March 2012, the Rolls Royce Phantom Coupé was relaunched and, like its predecessors, presents itself as a dynamic luxury car with a touch of nostalgia in a modernised design. Inside, passengers can expect an ambience of the finest leather. Rolls-Royce has come up with a special detail for the **Coupé's headliner, a starry sky made of LED lights**. Production of the Phantom was discontinued in 2016.

According to available documents and on-board papers, the vehicle presented here is in **3rd hand** with a **total mileage of only 32,968 km**.

Engine:

V-12-cylinder-engine, 6.749 ccm, 460 hp
