Description:

Twelve years after the launch of the 365 GT4 2+2, Ferrari presented the last generation of the large 2+2-seater, the 412. As with the transition from the 365 GT4 2+2 to the 400 GT, the striking body designed by Pininfarina had only been changed in details - the 412 was characterised by a higher boot, bumpers in body colour, modified alloy wheels and exposed fog lights. The 412 was delivered with ABS and a 3-speed automatic transmission as standard; a 5-speed manual gearbox was available as an option. Between 1985 and 1989, 576 Type 412s were built, only 110 of them with manual transmission.

This Ferrari 412 was first delivered to Switzerland and arrived in Germany a few years ago. The car has a total mileage of just 52,300 kilometres and has been regularly serviced by brand specialists. The **engine** was recently completely **overhauled for around € 80,000** according to the available invoices. The original logbooks are available. The rare manual car presents itself in a beautiful colour combination and is in **almost untouched original condition**.

Equipment:

- 5-speed manual gearbox
- Air conditioning
- ABS
- Leather steering wheel
- Electric seat adjustment
- Centre armrest in the rear
- Electric windows
- Becker radio
- alloy wheels
- etc.

Engine:

12-cylinder-V-engine, 4.941 cm³, V-Max 250 km/h, 340 hp (factory data)
