Description:

The Porsche 992 replaces the 991, which was built from 2011 to 2019, and continues the typical Porsche shape, which is as elegant as it is sporty. In 2021 Porsche launched their **25 kg lighter GTS models**, which are particularly interesting for **sporty drivers** who want **everyday suitability**.

The **Porsche Targa 4 GTS** offered here was delivered on **September 18, 2023** via the **Porsche Dealership in Hamburg, Germany** and has a total mileage of just **7,100 km**. This powerful Targa 4GTS impresses with its **appealing colour combination** and **extensive equipment**, which is no longer configurable at Porsche.
