### Equipment:

- Power steering
- RetroSound radio
- Air conditioning
- Leather upholstery
- Burl wood
- Electric windows front/ rear

### Description:

The two-door coupés celebrated their world premiere in September 1973 at the Frankfurt IAA. After numerous delays the production began in 1975. Based on the Jaguar XJ sedan, only a 6-cylinder version was offered at the beginning. The **powerful 5.3 liter XJ 12 C** with a vinyl roof was manufactured between September 1975 and November 1977. With around 287 hp, the Jaguar reached a **top speed of around 240 km/h** and was nicknamed the **“fastest vinyl roof in the world”**.

Just 398 examples were made in this version, of which just **26 were left-hand drive!**

The vehicle offered here was **delivered via the car dealership British Leyland GmbH Düsseldorf in September 1977** and first registered on **February 2, 1978** before the car was off-registered in 1993. After around 25 years of standing, the **untouched original condition with a rust free body** work of the Jaguar was sold to Hamburg and extensively partially restored by a specialist workshop. As part of the **restoration**, the paintwork on bare metal was renewed and the complete technic was overhauled in detail. This is **a rare opportunity** to purchase one of the top models of its time in a **perfect revised original condition** with a mileage of **just 45.700 km**.

### Engine:

V12-Engine, 211kW (287HP), 5307 ccm, **automatic GM 400**
