- Airbag
- AP high performance brakes

Description:

The Morgan Aero 8 is a British sports car manufacturer by Morgan, which was sold as a coupé and a roadster. The first generation was presented in February 2000 at the Genfer Motor Show. With this model, Morgan broke its tradition and introduced modern manufacturing methods. Since 2006, Morgan has equipped the Aero 8 with airbags and an anti-lock braking system (ABS) as standard. A facelift was also carried out with a smaller air intake below the radiator grille and round indicators.

This Morgan Aero 8 Roadster was first registered in Hamburg on 28 April 2006 in the name of its **current owner**. The car was specially configured by the Morgan Dealership, including root wood in the dashboard, a chrome surround on the glazed rear window, an AP racing brake system and a hand-made stainless steel sports exhaust system. Due to its **low mileage of only 1,742 km**, the Morgan impresses with its **perfect condition**, a sporty sound and **sensational driving performance**.

Engine:

BMW V8- Engine, 4398 ccm, 333HP, V-max. 250 Km/h
