- Full leather upholstery

Description:

The Aston Martin V12 Vanquish was first presented as a concept car at the North American International Auto Show (NAIAS) in 1998. Around 70 prototypes and pre-production vehicles were built before the Aston Martin V12 Vanquish was officially presented at the Geneva Motor Show in 2001. The luxurious sports car was mainly manufactured by hand at the Aston Martin factory in Newport Pagnell.

The vehicle offered here was delivered to its current owner in **November 2001** via **the Aston Martin dealer in Stuttgart**. Since then, this model has only been driven about **12,500 km** and has always been **maintained regularly**. The new car invoice including the special equipment list and **service invoices** are available. This is an absolutely **rare opportunity** to acquire one of Aston Martin's **most sought-after** and mainly **hand-made** cars in a **condition as new**.

Engine:

5,9 Ltr.-V12-Motor, 4665 ccm, 467 HP
