Description:

Range Rover has been the benchmark in terms of design, comfort and quality in the luxury segment of the 4x4 market. With the SVAutobiography Ultimate, Land Rover sets a new pinnacle of exclusivity in its flagship Range Rover - available as a Range Rover SVAutobiography with a standard wheelbase or as a particularly comfort-oriented version with a long wheelbase. Each vehicle is hand-built by Land Rover SV (Special Vehicle) experts at the Special Vehicle Operations technical center in the UK.

The vehicle offered here was delivered in Germany in 2015. Since then, all maintenance has been carried out during the **total mileage of only 89,000 km**. The car is free of accidents and **overall in an excellent condition**. The Range Rover impresses with its **exceptional features** and **maximum performance** with endless luxury and comfort.

For more information, here is a **driving report** from the magazine "Auto, Motor, Sport"
