AUTOMOBILE RARITÄTEN

**Equipment:**

Leather, sports exhaust, hardtop

**Production:**

1 of only approx. 199 original T6 S-90 Roadsters built.

**Description:**

The 356 B Roadsters of the T6 series **are considered as some of the rarest models** that Porsche has produced in series. Porsche stopped the Roadster's manufacture during the B-Series production period, therefore this T6 version with its rear double grill and the flattened engine hood is one of the most sought-after 356s.

This 356 B 1600 Super 90 T6 Roadster was delivered on 18th December 1961 via MAHAG in Munich. According to the available photo documentation the vehicle **was completely restored a few years ago**. In addition, **the engine was performance-optimized**. The vehicle comes with an **original hardtop**. This Roadster has three previous owners. In the past years there were almost no vehicles on the market. **A rare opportunity for collectors!**
