Equipment:

- Whitewall tyres
- Air conditioning
- 4 x electric windows
- Left-hand drive
- Power steering
- Automatic gearbox
- Colour glazing
- Picnic tables
- Burl walnut wood

Description:

The Silver Cloud II was introduced in 1959. While the appearance of the vehicle was retained, the car was fitted with a **newly developed 6.2-litre V8 engine**. With the new engine, the vehicle achieved a **significantly higher performance** with a top speed of 183 km/h.

According to available documents, the vehicle presented here was delivered in Rome in 1961. A few years later, the car was registered in Florence, where it remained in 2nd hand until 2019. In the years that followed, the vehicle underwent **extensive restoration by a Bentley / Rolls-Royce specialist** based on its excellently preserved original substance and **was repainted in the colour in which it was delivered**. Overall, the car is in a very beautiful condition and impresses not least with its **rare, tasteful colour combination**.

Engine: 6,2-l-V8-engine
