Description:

Modern engineering meets classic elegance! The Wiesmann Roadster MF3 was presented in 1993 as a technical further development of the predecessor model MF30 and was handcrafted in perfection to detail in the manufactory in Dülmen.

The powerful drive unit from the BMW M3 E46, combined with the 6-speed manual transmission, gives the Roadster its extremely sporty character with outstanding performance!

A good opportunity to acquire a Wiesmann Roadster MF3 with a total mileage of just 47,310 km and in a very well-maintained condition in an attractive color scheme. There is no comparable young classic that combines individuality, luxury and sportiness so perfectly. The original board folder and the matching production book are available.

Engine:

BMW-6-cylinder, 3246 ccm, 343 hp
