- Light-Design Package

### Description:

Based on the GT4, the RS was presented on November 17, 2021 at the LA Auto Show. With the engine of the 992.1 GT3 and a maximum output of 368 kW (500 hp), it accelerates to 100 km/h in 3.4 seconds and reaches a top speed of 315 km/h. A highly agile mid-engine concept with a displacement of 4 litres, a 6-cylinder naturally aspirated engine and 6 individual throttle valves ensure direct response and make the GT4 RS one of the most popular track tools of its time with a weight of just 1,490 kg.

The Porsche 718 Cayman Gt4 RS with **Weissach package** offered here was delivered to its **current owner** on 15<sup>th</sup> of December 2022 via the **Porsche centre in Hamburg**, Germany and has a mileage of just **30 factory kilometers!!** The vehicle offered here is in mint condition and without repainting.
