Description:

Hardly any other model embodies pure racing as closely as a GT3 RS. The 521 hp road-legal high-performance sports car consistently uses the technologies and principles from motorsport.

The Porsche **991.2 GT3 RS with Weissach package** offered here was delivered on **25.01.2019** via Porsche in Ohio (Florida), USA. In 2023, the vehicle returned to Germany and was registered to its current owner. A 111 point check and major maintenance has currently been carried out. With **a mileage of just 2,100 km**, the vehicle is in mint condition, with no repainting. The complete history can be traced on the basis of Porsche maintenance. This **powerful GT3 RS impresses with its sporty colour combination and extensive equipment.**
