- Leather interior
- Bordcomputer

Description:

With the Porsche 964, the Zuffenhausen-based company transported the 911 design into the 1990s. The third generation of the Porsche 911 still relied on the proven concept of an air-cooled six-cylinder boxer engine in the rear, but offered plenty of technical innovations. The 2+2-seater sports car came onto the market for the 1989 model year and was built until 1993. Only 1,437 of the highly sought-after **Porsche 964 Turbo 3.6 were ever produced during this period.**

The Porsche **964 Turbo 3.6** offered here was delivered via the **Porsche Center "Hahn Sportwagen" in Fellbach, Germany.** The largely **untouched** original vehicle with its **low mileage of 54,245 km** is in **absolute collector's condition.** A **traceable maintenance and ownership history** as well as the **original on-board folder** are also available. We are offering you a good opportunity to acquire one of the highly sought-after and rare 3,6 ltr. Turbo models in an **attractive color scheme.**
