## Description:

The BMW Z8 was built in limited numbers between 1999 and 2003 and is considered a tribute to the legendary BMW 507 of the 1950s. An aluminum chassis, classic design, and the V8 engine from the M5 make the Z8 one of the most charismatic roadsters of the modern era – with significant collector potential.

This particular vehicle was first delivered in **July 2000 to Ontario, Canada**, and returned to Germany in 2015, where it joined its current owner. The **classic color combination** of Titansilver metallic with black leather interior accentuates the timeless design. The Z8 has a **mileage of 68,000 km** and has been regularly maintained – the service history is fully traceable via the original documentation and Carfax. The most recent major service was carried out at BMW in June 2025, during which the convertible soft top was also renewed.

The car comes with a hardtop, the original BMW radio, **a performance package**, and **desirable Alpina wheels**. Its condition is very well maintained, both visually and mechanically.
