THIESEN
AUTOMOBILE RARITÄTEN

The Body of the car shown here is based on the look of the LeMans winning Bentles in the late 20s. The platform is a Bentley R-Type 2nd Series Chassis that was married to a new original B 80 Rolls Royce / Bentley - an 8 cylinder straight eight engine with 5,65 litre - and a new Body in LeMans Style. The car was built by Racing Green in South Wales - a company with more than 40 years experience in Pre-War Bentleys. Technic and Electric was modernised to meet nowadays expectations.

The price includes 19 % Sales Taxes !
