— Cruise control
— Electrochromic interior and exterior mirrors
— Reversing camera
— Cruise Control

Description:

The Ferrari F12 Berlinetta marks a milestone in the history of front-engined V12 models from Maranello. Equipped with a powerful 6.3-litre naturally aspirated V12 engine, it combines outstanding performance with exceptional engineering. Designed by Pininfarina, its shape blends aerodynamic efficiency with timeless elegance. The F12 stands for uncompromising performance, precise handling, and remarkable driving comfort – a true Gran Turismo excelling both on long journeys and during spirited driving.

The vehicle on offer impresses with an attractive Grigio Granito colour scheme and has been in **third ownership since 2014**. With only 38,300 km, it presents itself in a **well-maintained and accident-free condition**. First delivered on 23.02.2013 via the official Ferrari dealer Maranello Motors in Cologne, it recently **received a major service including timing belt replacement**. The original on-board documentation, including service book, as well as **German registration papers**, confirm the traceable history and consistent maintenance.

Engine: 6.3-litre naturally aspirated V12 engine, 6,262 cc, 740 hp
