## Description:

With the **“50 Years Turbo Edition,”** Porsche pays tribute to one of the most iconic models in the company’s history. Ever since the first 930 Turbo, the 911 Turbo has stood for uncompromising performance, everyday usability, and technical innovation.

The example offered here is a **first-owner “50 Years Turbo Edition”** presented in virtually new collector’s condition with only **1,630 km** on the odometer. Particularly noteworthy is its **production number 725 of only 1,974 examples produced worldwide**, further emphasizing the exclusivity and collectability of this highly desirable special edition. Featuring an extensive list of optional equipment, including the Burmester High-End Surround Sound System as well as numerous comfort and driver assistance systems, this Porsche 911 Turbo perfectly combines outstanding performance with exceptional driving comfort. A rare opportunity to acquire an almost brand-new special edition model with extremely low mileage, limited production, and **significant collector potential**.

**Engine:** 3.8-litre twin-turbocharged 6-cyl. Boxer, 8-speed PDK transmission, 650 hp
