- Alloy wheels
- Bi-Xenon-headlights (PDLS)

### Description:

The Porsche 911 Carrera Cabriolet (991 generation) combines classic 911 design elements with modern technology and outstanding everyday usability. Compared to its predecessor, the significantly wider bodywork, high-quality interior, and powerful 3.4-liter naturally aspirated boxer engine make this open-top 911 one of the most desirable sports cars of its generation. With 350 hp and the characteristic Porsche driving dynamics, the Carrera Cabriolet offers a particularly emotional driving experience while maintaining excellent long-distance comfort.

The Porsche 911 Carrera Cabriolet offered here is an early 991-series model equipped with the increasingly sought-after 3.4-liter naturally aspirated engine. The vehicle was first registered in August 2012 and features an attractive Agate Grey exterior combined with a black interior. The original documentation folder, including the owner's manuals and Porsche Assistance documents, is complete and present. The car remains in its original factory paint throughout and is presented in exceptionally well-maintained overall condition.

**Engine:** 6-cylinder-Boxer engine, 3.436 ccm, 257 kW (350 hp)
