Equipment:

— 5-speed ZF transmission
— Campagnolo wheels
— Radio Blaupunkt
— Power steering
— Electric windows
— Air conditioning
— Tinted glass

Description:
Unveiled in Turin in 1966, the Maserati Ghibli quickly established itself as a serious rival to the Ferrari 365 GTB/4 'Daytona' and the Lamborghini Miura. The SS version increased output to around **335 hp from 4.9 litres of displacement**, making the Ghibli, with a top speed of 280 km/h, the fastest road-going Maserati of its time. The body, designed by Giorgetto Giugiaro at Ghia with its long bonnet and elongated silhouette, is still regarded today as an icon of Italian sports car design. Only around **425 examples of the Ghibli SS coupé were built worldwide**.

The car offered here, with matching chassis and engine numbers, was completed in April 1971 according to the certificate on file and delivered to the USA, **sold to Germany in 2013** and entered a **top-tier Maserati collection**, where it remains to this day. According to invoice documentation on file, it has since been continuously maintained and perfected by **Maserati specialists**. This Ghibli SS presents itself in **an elegant colour combination** of blue metallic with black leather upholstery and is in **outstanding condition.**
