THIESEN
AUTOMOBILE RARITÄTEN

The rare BMW M1 (category of Historic Supercars) was the fastest German production car till 1982. To build this car, BMW founded the M-GmbH (under Jochen Neerpasch managment). At first the bodywork got to be created at Lamborghini - but it came in the end from BAUR in Stuttgart. The design war created by famous Giugiaro.

This particular BMW M1 is - out of a production of 453 cars of which 400 had legal road registrations - one of approx. 330 cars that are still existing. This M1 was delivered new to Leonberg in Germany and has always been registred here in Germany - over 40 years with one family in Berlin.

BMW M1 are very underestimated cars and are shurely a good investment for a collector.
