Description:

The Mercedes-Benz 250 SE Cabriolet, built from 1965 to 1967, is a particularly elegant representative of the legendary W111 series. It combines timeless design with solid engineering and luxurious features. The powerful 2.5-liter inline-six engine with mechanical fuel injection offered a harmonious combination of performance and comfort for its time. Only 954 units of this exclusive model were produced – each of them meticulously hand-crafted. Today, the 250 SE Cabriolet is among the most sought-after classics of the Mercedes-Benz brand and is considered a stylish icon of the 1960s.

The vehicle offered here was originally delivered to the USA in 1966 and returned to Germany in 2020, where it has been in the **care of a single owner ever since**.

Highlights include its **largely untouched original condition**, the **excellently preserved body structure**, and the **low total mileage of just 78,426 km**. The **mechanics** have been continuously maintained and overhauled over the years. The engine, colour scheme, and interior match the **original delivery specification** according to the available Mercedes-Benz data card (matching-number).

A rare opportunity to acquire a highly documented 250 SE Cabriolet in an **original and rare colour combination**, presented in **absolute exceptional condition**.

Engine: Inline-6, 2,496 cc, 150 hp (110 kW)
